ASSUMPTIONS

Tiny home pads — baseline price	**$48,986 / pad · Derived estimate — verify (specialty-residential/tiny-home-community.json)**
Tiny home pads — factors	**regional 0.82 · quality 1 · size 0.9894 · escalation 1.0488**
Tiny home pads — research note	**A tiny home community is priced per pad: utility stubs (water, sewer, 50-100A electric), a foundation or pier/**

	parking pad, roads, landscaping and a share of a community building, with the home itself either owner-supplied (tiny house on wheels) or developer-supplied (optional line item). Published budgets are almost all supportive/transitional villages (Quixote Village WA, Los Angeles tiny home villages), so the market-rate default is derived from those and from the RV park per-site evidence. Confidence low-medium.
Phase 1 — schedule	**2027-03, 12 months, midpoint 2027-09, escalation 4.88% (forecast rates from _indices/escalation.json)**
Phase 1 — financing	**LTC 60%, rate 7.00%, fee 1.00%**
