Sources & Assumptions

ASSUMPTIONS

QSR building — baseline price	**$601 / SF · Researched (commercial/retail-pad-qsr.json)**
QSR building — factors	**regional 0.89 · quality 1 · size 0.991 · escalation 1.042**
QSR building — research note	**Ground-up freestanding quick-service restaurant (1,400–3,500 SF) with drive-thru on a 0.6–1.5 acre outparcel. Cost per SF is high because a small building carries a full commercial kitchen MEP load plus a large share of site work (drive-thru stacking lane, parking, utilities), which franchisor data puts at roughly one-third of building+site cost. Data quality is good: seven 2026 franchise disclosure documents (Item 7) publish building and site-work ranges drawn from recent company and franchisee projects; per-SF conversion depends on assumed building size.**
Phase 1 — schedule	**2027-03, 8 months, midpoint 2027-07, escalation 4.20% (forecast rates from _indices/escalation.json)**
Phase 1 — financing	**LTC 60%, rate 7.00%, fee 1.00%**
