Brazos Crossing — 3-phase master plan

Fort Worth, TX

TOTAL PROJECT COST	PER SF	PER ACRE	HARD / SOFT / LAND
$170,314,234	**$287.60**	**$2,747,004**	**72 / 22 / 7%**

COST SUMMARY

Construction hard cost	**$108,856,805**
FF&E	**$2,687,919**
Design + construction contingency	**$10,824,388**
Hard cost subtotal	**$122,369,113**
Soft costs	**$18,347,167**
Impact & tap fees	**$7,011,058**
Developer fee	**$4,781,770**
Financing (interest + fees)	**$5,446,337**
Soft cost contingency	**$1,258,189**
Soft cost subtotal	**$36,844,521**
Land & acquisition	**$11,100,600**
Total project cost	**$170,314,234**

BASIS

Location	**Fort Worth, TX (factor 0.840)**
Gross building SF	**592,200**
Site acres	**62.00**
Cost per acre	**$2,747,004**
Research data version	**2026.7c60a42879**
Engine	**budget-engine-2.0.0**

All defaults come from the research data shipped with the app (2026.7c60a42879), escalated to the construction midpoint and adjusted to the project location. Values marked "Derived estimate — verify" have no direct published source.

Cost by Component

COMPONENT	TYPE	SIZE	HARD (INCL. FF&E, CONT.)	SOFT (INCL. FIN.)	LAND	TOTAL	PER PRIMARY UNIT	PER SF	RANGE CHECK
Garden apartments	Garden multifamily	300 units	$61,247,112	$20,605,773	$5,219,173	$87,072,057	$290,240	$276.42	within ($150,000–$420,000)

Sources & Assumptions

ASSUMPTIONS

Garden apartments — baseline price	**$195,000 / unit · Researched (residential/garden-multifamily.json)**
Garden apartments — factors	**regional 0.84 · quality 1 · size 0.9855 · escalation 1.0766**
Garden apartments — research note	**2-4 story Type V wood-frame walk-ups on surface parking - the lowest-cost multifamily product; cost is driven by framing, MEP, finishes and a meaningful (~12-14%) on-site development share. Good data: an elemental breakdown from RAND (Trammell Crow Residential garden projects), RLB city ranges, RSMeans, a Florida HFA hard-cost factor and several developer/contractor ranges; per-unit market-rate data are thinner than per-SF data.**
Rental townhomes — baseline price	**$282,236 / unit · Researched (residential/townhomes.json)**
Rental townhomes — factors	**regional 0.84 · quality 1 · size 0.9631 · escalation 1.1456**
Rental townhomes — research note	**Attached 2–3 story wood-frame townhouses, for sale or rent. Shared party walls save exterior envelope and lot area. Rated fire separations, more stairs and higher kitchen/bath density per SF offset part of that, so per-SF cost is close to detached homes. National data is indirect: Census sale prices for attached homes, translated with NAHB cost shares. The only direct cost points are permit valuations and a builder survey from Washington State. Confidence is medium.**
Grocery-anchored center — baseline price	**$175 / SF · Derived estimate — verify (commercial/grocery-anchored-center.json)**
Grocery-anchored center — factors	**regional 0.84 · quality 1 · size 1.0264 · escalation 1.1456**
Grocery-anchored center — research note	**Neighborhood center (60,000–150,000 SF) with a 40,000–65,000 SF supermarket anchor plus in-line shops and outparcels. The landlord typically delivers the anchor as a shell/pad (grocer funds refrigeration and fixtures) and builds a large parking field. No public development budget was retrieved; cost is derived from RLB strip/center ranges and RSMeans supermarket/store models.**
Select-service hotel — baseline price	**$146,345 / key · Researched (hospitality/hotel-select-service.json)**
Select-service hotel — factors	**regional 0.84 · quality 1 · size 1.0036 · escalation 1.211**
Select-service hotel — research note	**Branded 4–5 story select/limited-service hotel (Hampton / Courtyard class) of ~80–160 keys with breakfast area, small meeting room, fitness and pool; cost is driven by guestroom count, framing system (wood vs. concrete/steel) and market. Data quality is good: four editions of the HVS U.S. Hotel Development Cost Survey (2022–2025 data) give national per-key medians by component, cross-checked with RLB Q2 2026 3-star $/SF and an HVS feasibility budget. HVS building costs include permits, engineering and hard contingency, so they are scaled to our hard-cost definition.**
Phase 1 — infrastructure + apartments — schedule	**2027-04, 25 months, midpoint 2028-05, escalation 7.66% (forecast rates from _indices/escalation.json)**
Phase 1 — infrastructure + apartments — financing	**LTC 60%, rate 7.00%, fee 1.00%**
Phase 2 — townhomes + retail — schedule	**2029-05, 14 months, midpoint 2029-12, escalation 14.56% (forecast rates from _indices/escalation.json)**
Phase 2 — townhomes + retail — financing	**LTC 60%, rate 7.00%, fee 1.00%**
Phase 3 — hotel — schedule	**2030-07, 19 months, midpoint 2031-05, escalation 21.10% (forecast rates from _indices/escalation.json)**
Phase 3 — hotel — financing	**LTC 60%, rate 7.00%, fee 1.00%**
